DREAM SHARING CIRCLE

Friday June 21, 18:00 - 21:00

40 Euros

During this evening session, several dreams of the night will be discussed in English as we learn to unravel the mysteries of metaphor, paradox and symbolism. Serving as a facilitator and peer, Victoria models deep listening techniques that encourage active engagement among participants and call forth the collective wisdom of the group. Bring a short dream from any time in your life.

THE ART OF DREAMING

Dream writing and collage workshop

Saturday June 22, 10:00- 17:00

80 Euros + 10 euros material fee

The structure of dreams may seem crazy and irrational but dreams of the night create their own reality and follow their own kind of logic. Through guided creative writing prompts and the synchronicity of found imagery collage, you will fill a concertina book structure with the immense wisdom and creative power your nighttime visions hold.

LIFE AS A RIVER

A Memoir writing and collage workshop

Sunday, June 23, 9:00 - 15:00

80 Euros + 10 Euros material fee

The flow of water through a river is like the pure life force that flows through our lives. Using the river as a metaphor for your life, you will fill a meandering concertina book structure with cascading collages and liquid language. Through guided writing prompts and the synchronicity of found imagery collage, you will cut through the canyons of your mind, drift into the undercurrents of memory and wade in the still pools of your soul.

175 euros for all three workshops
